Følsomhed: Fortrolig

Hi Lone,

Thank you for your email.

I can confirm that we have recently written to South Africa advising them of the changes made by Orica to the dates on the notification forms.

I will send to you our recent correspondence to the South African authorities for your files in separate emails.

As you will see from our exchanges we are not expecting to hear from the South Africa authorities as we consider that the consent to this movement remains valid unless we are otherwise notified.

I trust this satisfies your concerns regarding the transit of the HCB wastes through South Africa?

If you have any questions regarding this please feel free to contact me directly.

Warm Regards
Damien

Dear Damien,

I have an observation with regard to the consent from the Transit country South Africa - the consent is ok but the time periode is 28 February 2009 to 27 February 2010 - which means that we need a new consent from SA with the new time periode (24.01.10 - 23.01.11) as far as I can see.

I will be at a Conference here in Copenhagen the next two days, but I will read my mails if anything turns up.
Best regards
Lone
